**PROGRAMME SPECIFIC OUTCOME FOR 3-YEAR B.A. (HONOURS) IN
ENGLISH**

REVISED SYLLABUS UNDER CBCS

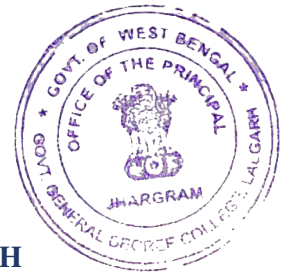

Attainment of PO & COs of B.A. English Honours:

The 3-Year Bachelor of Arts (Honours) in English (CBCS) at Vidyasagar University is structured to help students develop a deep understanding of English literature, language, and related cultural studies. The Choice Based Credit System (CBCS) offers flexibility and a broad-based education, with a focus on both core and elective courses.

Programme Outcomes:

- 1. Comprehensive Literary Knowledge:** Students will gain an in-depth understanding of English literature from various periods, genres, and regions, allowing them to appreciate the diversity of literary expressions.
- 2. Critical Thinking and Interpretation:** The program emphasizes the development of critical thinking skills, enabling students to analyze texts, understand underlying themes, and engage with complex literary theories.
- 3. Language and Communication Skills:** Graduates will enhance their proficiency in the English language, both in written and oral forms, which is essential for academic and professional success.
- 4. Research Competence:** The curriculum includes training in research methodologies, preparing students to conduct independent research and contribute original insights to the field of English studies.
- 5. Interdisciplinary Connections:** The program encourages students to make connections between literature and other disciplines, fostering a holistic approach to learning.
- 6. Cultural and Ethical Awareness:** Through the study of literature, students will develop a nuanced understanding of cultural diversity and ethical considerations, promoting a more inclusive worldview.

These outcomes prepare students for a variety of career paths, including education, journalism, publishing, content creation, and other fields where analytical and communication skills are highly valued.

**PROGRAMME SPECIFIC OUTCOME FOR BA (GENERAL) WITH ENGLISH
PROGRAM UNDER CBCS**

Attainment of PO & COs of B.A. English General:

The Bachelor of Arts (General) with English under the Choice Based Credit System (CBCS) at Vidyasagar University is designed to offer students a broad-based education in the humanities, with a focus on English language and literature. The DSC Courses in English provide foundational knowledge in English studies while allowing students to explore various other disciplines.

Programme Outcomes:

- 1. Fundamental Literary Understanding:** Students will acquire a basic yet comprehensive understanding of key literary works, genres, and movements in English literature.
- 2. Enhanced Language Skills:** The program emphasizes the development of effective communication skills in English, both in writing and speaking, which is essential for various professional fields.
- 3. Critical and Analytical Thinking:** Students will develop the ability to critically analyze texts, identify themes, and interpret literary works within their historical and cultural contexts.
- 4. Interdisciplinary Learning:** The program allows students to combine English with other subjects, promoting a well-rounded education and the ability to make interdisciplinary connections.
- 5. Cultural Awareness:** Through the study of literature and language, students will gain an understanding of different cultures and perspectives, fostering global awareness and sensitivity.
- 6. Preparation for Diverse Careers:** The skills acquired through this program, including critical thinking, communication, and cultural literacy, prepare students for careers in teaching, content writing, media, public relations, and other related fields.

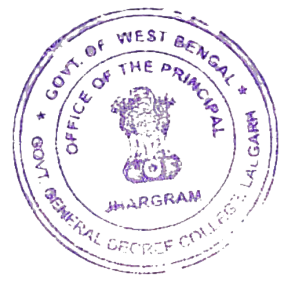

This program aims to create graduates who are not only proficient in English but also possess a broad understanding of the humanities, making them versatile and adaptable in various career paths.

**Department of Botany,
Govt. General Degree College, Lalgarh, Jhargram, W.B.
B.Sc. (General Botany) under CBCS system:
Attainment of PO & COs of B.Sc Botany General:**

PROGRAM OUTCOME (PO):-

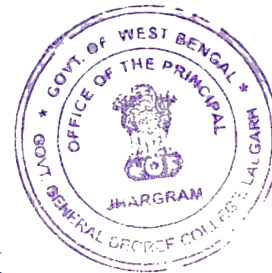

PO1. Understand the nature and basic concepts of biodiversity (Viruses, bacteria, algae, fungi, bryophytes, pteridophytes, lichens, mycorrhizae and gymnosperms), cell biology, genetics, molecular biology, anatomy, morphology, biochemistry, plant physiology, taxonomy and ecology of plants.

PO2. Students learn to carry out practical work in the field as well as in the laboratories, sometimes at other institutes' laboratories, gain skills and proficiency in Interpreting plant morphology and anatomy, Plant identification etc.

PO3. Identify the taxonomic position of plants, formulate the research literature and analyses the plants with substantiated conclusions using first principles and methods of nomenclature and classification in Botany. Sometimes directly related to research methodology and applied aspects like floriculture, bioinformatics and nursery and gardening.

PO4. Identify problems and independently propose solutions using creative approaches, acquired through interdisciplinary experiences, and a depth and breadth of knowledge/expertise in the field of Plant Identification.

PO5. Demonstrate hands on skill in the experimental techniques and methods of analysis in various fields of Botany like ethnobotany, economic botany, bioinformatics, herbal technology, mushroom culture technology, biodiversity and human welfare, medicinal botany etc.

**INSTITUTION WISE COURSE AND PROGRAM OUTCOMES CONSIDERED BY
DEPARTMENT OF PHYSIOLOGY BY GOVERNMENT GENERAL DEGREE
COLLEGE, LALGARH FOR UNDERGRADUATE (B.Sc.) GENERAL COURSE ON
PHYSIOLOGY OF VIIDYASAGAR UNIVERSITY**

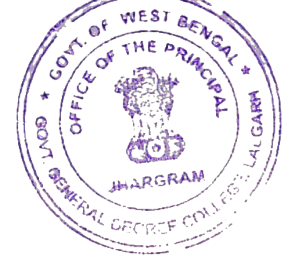

3-YEAR UG (CBCS) PHYSIOLOGY (GENERAL) COURSE

Attainment of PO & COs of B.Sc Physiology General:

PROGRAMME SPECIFIC OUTCOMES:

Programme specific outcomes of Physiology are designed to ensure that students gain a comprehensive understanding of the subject matter and develop the necessary skills and competencies for their future careers or further studies. Some common program-specific outcomes for the study of physiology are:

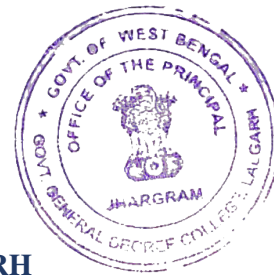

- ✚ **Understanding of physiological principles:** Students should demonstrate a thorough understanding of the fundamental principles and concepts in physiology, including cellular physiology, organ systems, and the integration of physiological processes.
- ✚ **Knowledge of anatomy and function of human systems:** Students should be able to identify and describe the structure and function of the major organs and systems in the human body like cardio-respiratory, neural, renal, endocrine, reproductive, endocrine system etc. with particular emphasis on human, to understand how these separate systems interact to yield integrated physiological responses and maintain internal stability. i.e., homeostasis.
- ✚ **Application of physiological concepts:** Students should be able to apply physiological knowledge to explain and analyze biological phenomena, disease processes, and responses to various stimuli.
- ✚ **Laboratory and research skills:** Students should be proficient in conducting laboratory experiments, data collection, and data analysis relevant to physiology. They should understand research methodologies and be able to critically evaluate scientific literature.
- ✚ **Concept of instrumentation:** To develop the ability to use the principles of the scientific method and have concepts of microscopy, separation techniques, principle of spectrometry, principle of ECG, imaging techniques used in modern medical sciences –CT scan, MRI, PET scan, WBGT techniques, principle of sound level meter, digital pH meter, Spectro colorimeter etc.
- ✚ **Problem-solving abilities:** Students should develop the capacity to analyze and solve physiological problems, both theoretical and practical, using appropriate scientific reasoning and evidence-based approaches.

GOVERNMENT OF WEST BENGAL
GOVERNMENT GENERAL DEGREE COLLEGE, LALGARH
LALGARH::JHARGRAM::721516

Website: www.lalgarhgovtcollege.org

- ✚ **Communication skills:** Students should be able to effectively communicate physiological concepts and research findings through oral presentations, written reports, and scientific publications.
- ✚ **Integration of interdisciplinary knowledge:** Physiology is closely related to other fields of science, such as anatomy, biochemistry, biophysics, pharmacology, and neuroscience, biostatistics, chronobiology, ergonomics etc . Students should be capable of integrating knowledge from these disciplines to gain a holistic understanding of physiological processes.

Programme Outcomes
Under CBCS
Bachelor of Science General in Zoology

Attainment of PO & COs of B.Sc Zoology General:

Programme Outcomes of B.Sc General in Zoology

After successful completion of a B.Sc. three-year-degree course (General) in Zoology, a student is expected to achieve the following outcomes.

1. A student having Zoology as a general subject will be able to understand the vastness of the diversity of animals.
2. They will understand the utility of classification through study of systematics.
3. They will be able to understand the origin & evolution of life and can identify and classify different chordate and non-chordate animals.
4. Understand the fundamentals of animal biology, physiology, biochemistry, genetics, cell biology, endocrinology, developmental biology, parasitology, immunology, vector biology, economic perspectives like apiculture, sericulture, aquaculture etc. and medical diagnostic techniques.
5. The different cell types of different animals with basic knowledge of physiology will enhance the understanding level of adaptation.
6. They will be more concerned about the recent environmental problems, and can understand the importance of biotechnology as an applied field from the study of genetics and developmental biology.
7. The scope of the subject through research and applied field will be also open to them.
